ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: AUTOMOBILE FOLDABLE CARGO LINER

(57) Abstract: This invention relates to a vehicle load area liner (2) comprising a sheet (3) foldable to form a receptacle having a base and a wall (5) around the base (4), the receptacle being arrangerable in use to be mounted in the load area of a vehicle, and wherein at least a portion of the wall (5) of the receptacle is unfoldable to provide a flap able to mask the threshold (34) of the load area, when the vehicle load area is open, in use. The invention further provides a method of protecting a vehicle load area comprising the steps of: (a) providing a liner (2) of the invention; and in any order; (b) folding a liner (2) to form a receptacle; and (c) mounting the liner (2) on the floor of the vehicle load area.
